Our seafood is sourced from trusted, sustainable suppliers based in Cornwall, with fresh deliveries arriving six days a week. We are proud to work with suppliers that share our commitment to exceptional quality and environmental responsibility.

All our meat and game is sourced from local farmers and Estates. We carry out all butchery and preparation in house, embracing a nose to tail, zero waste philosophy that ensures every part of the animal is respected, utilised and celebrated.

At The Foxham, healthy eating is at the heart of our cooking; while we are dedicated to using the finest sustainable, local and organic ingredients, we also consciously avoid cooking with seed oils to ensure our dishes are as nourishing as they are delicious.

Please speak to a member of the team if you have a dietary requirements.
Service is at your discretion.
